MFH's FLIGHT DISCOVERY DAY

Learning to fly a helicopter is one of the most exciting and challenging things you can do in life. Anyone who has done it will tell you that it's fantastic fun! And the fun never stops, because once you've got your licence, you have the freedom to move around the British Isles and further afield. You are literally as free as a bird and can see the urban and rural landscapes in a way that most people only dream of.

But although it's a great thrill, getting your licence can be a bit of a commitment financially and time-wise. So, to make sure that learning to fly a helicopter really is for you, why not try our Flight Discovery Day?

MFH's Flight Discovery Day will give you a full and rounded idea of what it will take in order for you to learn to fly your helicopter – from the content of the ground exams to the technical manoeuvres like speed and power changes, level flight, climbs and descents...

Of course you will be spending a considerable part of your Flight Discovery Day in the air where you will have plenty of opportunity to handle the controls yourself. We want you to get a sense – the sheer adrenaline rush! – of commanding your own aircraft.

But you will be in the safest hands too because on our Flight Discovery Day you are guaranteed a one-to-one 4 hour session (2 hours flight time) with our most experienced pilot, Mike Horrell. Mike has over 17,000 hours flying time and has taught hundreds of students who are now flying helicopters around the world.

To encourage you to give it a go – even if it turns out to be just a once in a lifetime thrill - we have kept our Flight Discovery Day at a fantastically low price. At only £499 (INCLUDING VAT!) for 4 hours it really is an irresistible offer.

Good luck and good flying!
